

COLLECTIVE PROJECT
INTERNATIONAL PLANT
QUARANTINE
2020-2022

Memory of activities carried out on
2021 and Program for 2022

*A global database of plant quarantine
parasites worldwide*

Consultorías Noroeste S.C.

MEMORY OF THE ACTIVITIES CARRIED OUT ON 2021 AND FUTURE
PROGRAMMING OF THE COLLECTIVE PROJECT
INTERNATIONAL PLANT QUARANTINE

1.- PRELIMINARY RESULTS OF 2021

The results obtained by the project on 2021 were much better than what we expected:

- 66 quarantine agents published by CONSULTORIAS NOROESTE S.C.
- 288 quarantine agents published by 30 external members belonging to Plant Health public or private services or Universities of **Brazil, Seychelles Islands – plant pathologist from Cuba -, India, Morocco, Irán, Mexico, Colombia, Perú and Spain.**
- 4 revision papers about International Plant Quarantine published in the international technical issue Professional Plant Protection.
- 20 data sheets about international plant quarantine agents published on ordinary numbers of the international technical issue Professional Plant Protection.
- 66 data sheets about international plant quarantine agents published on a special number of the international technical issue Professional Plant Protection.

Up to the present moment the global results of the data base of the project are the following:

- 406 international plant quarantine agents published by the whole group, 309 of which, were published by external members of the group.

Although there will be specific bases for 2022 published soon it is important to mention that the actual members of the group may supply some more photographs or not, they will have the right to belong to the group, with all of the member benefits, till the end of the project on 2024. We have also decided to supply each of the actual members of the project group a bonus for the free supply of digital books of CONSULTORIAS NOROESTE S.C. up to the total value of 100 euros per member. We will publish specific instructions to request these digital books.

Collective Project – International Plant Quarantine

We will not finish this memory without sending you our most sincere congratulations, to all of the members of the group, for the excellent work carried out on 2021. We also encourage you to participate on the publications of papers and digital guides. We will soon publish bases for authors of the issue Professional Plant Protection.

Congratulations.

The Editorial Board

The Director – Dr. J.L. Andrés Ares.
